SUMMARY

FIRST HALF:

- ***Pursued FIFO Page Replacement Study*** :
    - *Disk Storage*
    - *File System*
    - *Demand Paging*
    - *Virtual Memory*
    - *I/O management*
    - *Virtual memory*
    - *Page Replacement Algorithm*
- ***Troubleshooting of Multiple Client Server program in C***
    - *Tried to find the alternative of Python libraries that I used to convert the code in C.*

SECOND HALF :

- ***Page Replacement Algorithm Implementation***
    - *Learned about the working of page replacement algorithms and its process.*
- ***Tried to Combine a FCFS and Page Replacement Program***
    - *Here I learned about disk requests and the head movement.*
